Professional Experience | 7 Years

Senior Software Developer / Software Engineer

Transreport | Lahore, Pakistan

Oct 2022 - May 2024

Worked on their different projects but mostly spent time on the main product that they have to provide assistance. I was the key person who build and refactor the old code base and provided solutions to many problems. Successful releases, documenting them and testing them. Integrated many third party apis.

Senior Software Developer / Software Engineer

LTV FUND | Lahore, Pakistan

Oct 2021 - May 2022

I have worked for Shopify Application of one of the company's client. We first started from support tasks then we decided to create/revamp the application from start in ReactJS and Polaris. I have also updated many shopify libraries and dependencies. Also got chance to work on Theme app extension and Post Purchase Extension.

Senior Software Engineer

Finlink | Lahore, Pakistan

May 2021 - Oct 2022

I worked here as a BE developer and integrated many third party apis. Added new features and provided support to old features as well. As the application was running on ROR engines there were many different modules I worked on.

Software Engineer / Software Developer

Technosoft Solutions (Pvt) Ltd | Lahore, Pakistan

Jan 2020 - Apr 2021

I joined Technosoft on 1st January, 2020. My goals at Technosoft is to manage teams, train junior resources, communicate with client and develop client projects..

Software Developer / Software Engineer

Devsinc | Lahore, Pakistan

Jul 2017 - Dec 2019

I worked as a full stack software engineer at Devsinc. I have 2 years and 6 months of experience in Ruby on Rails along with Reactjs and Angularjs

Projects

ICU

Eduleaf

Aug 2019 - Jan 2020

Devsinc

<https://eduleaf.com/>

Tools: Ruby in Rails, OpenCV, cpp, Jira, AWS

Eduleaf is an automated online tool that allows the grading of ordinary paper-based exams containing any type of questions. It can handle math questions, chemical diagrams, essay questions, as well as multiple-choice.

ScopeAR

Jun 2019 - Dec 2019

Devsinc

<https://www.scopear.com/>

Tools: Jira, Ruby on Rails, ReactJs, AngularJS, AWS

Scope AR built its reputation on creating excellent custom augmented reality projects for some of the most discerning organizations in the world. Whether your needs are extensive or straightforward, we can offer a level of service unmatched in the augmented reality industry.

Web2kan

May 2019 - Dec 2019

<http://web2kan.com/>

Tools: VueJS, Rails, S3, Heroku

Web2kan is my personal project which is under development but is deployed. Product provides whitelabels to local shops. It creates dynamic header and footer details. Shops can have their own website using subdomain of web2kan.

Soono Survey

Nov 2018 - Feb 2019

Freelance

<https://mysoono.com/>

Tools: React + Rails API

Easy surveys and excellent customer analysis system

Voice To The Voiceless

Jan 2017 - May 2017

V2V

Tools: Arduino, Android Studio, Flex sensors, gyro

We developed a glove for dumb and deaf persons who cannot speak. They make sign with their hand and our android app speech the particular word and also displayed it on screen

Myintellirent

Jul 2016 - Nov 2018

Devsinc

www.myintellirent.com

Tools: ruby on rails, Jenkins, heroku, selenium, capybara, pivotal

Intellirent lets renters fill everything out online and pay just one application fee. That single fee covers every apartment in our network. Leasing agents reclaim lost hours so they can do what they do best—lease great apartments to great renters.
